Founder of the Company

## PREAMBLE

Dear Clients,

It gives me immense pleasure to inform you regarding the latest facility of Gulf Compressor Company Ltd i.e. our 500 square meter workshop. As you all are aware that Gulf Compressor Company has been in the business of Sales and Marketing of Twin shaft positive displacement machines like blowers and compressors since 1990. We've enjoyed phenomenal growth since establishing the company and also increased our activities in after sales services. Along with after sales we now offer new machines of the highest standard and quality in collaboration with our new partners Robuschi S.p.A – Italy. The only small hitch we faced was a lack of our own facility which was covered by sending out our after sales team to the sites to solve the issues.

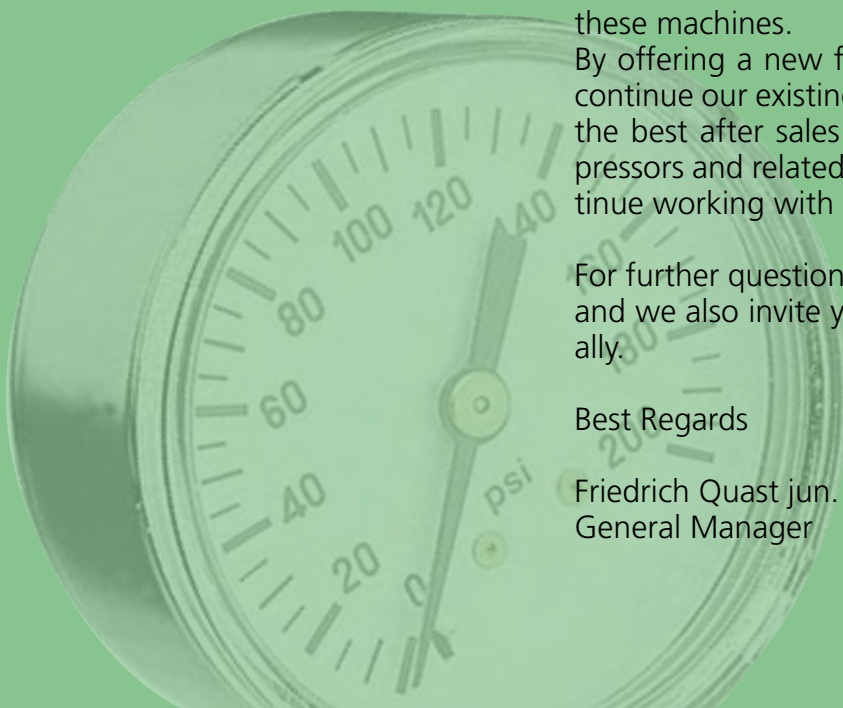

After 2 decades in the region we felt the time was ripe to have our own facility which would help in providing even better services to our clients. We understand that during these recessionary times a lot of clients prefer to have the machines repaired or over hauled rather than investing in news ones as we all look to increase our bottom line, hence we've decided to help you in this endeavor of yours by setting up this brand new workshop. Our workshop helps us in offering you- assembling, repairing and maintenance of all brands of blowers and screw compressors and related equipment. Along with the above services we also have a dedicated store for all kinds of spare parts for the required machines hence cutting down time on repair and maintenance and we also offer extensive hands on training regarding these machines.

By offering a new facility we look forward to reinvigorate and continue our existing relationship with you. As we strive to have the best after sales services in connection with blowers, compressors and related technologies in the region we hope to continue working with you for many more years to come.

For further questions and inquiries please feel free to contact us and we also invite you to come and visit our workshop personally.

Best Regards

Friedrich Quast jun.  
General Manager

# HOW TO FIND US

## Workshop Directions from Dubai

1. From Dubai to Ras Al Khaimah on Emirates Road all the way to the end of a big roundabout, take right towards RAK from the roundabout
2. Drive straight, pass one red light and come to a tent roundabout and take right from it
3. Drive straight, pass one red light again and pass a small roundabout and drive straight approximately 3 kms. Cross one red light and on second red light turn right.
4. Drive straight towards a lamp roundabout
5. From the roundabout keep driving straight towards the 3rd U-turn approximately 2-3 kms.
6. From the 3rd U-turn turn back and drive 100 meters and take a first right with a sign board monitoring the Livestock market
7. Follow the street approximately 8 kms with a slight bend near the live stock market bending towards left.
8. Following the street after the bend approximately 500 meter, turn right. RAK Prison is on your left hand side.
9. Drive straight towards the mountain approximately 3 kms through a small green grass entrance.
10. Gulf Compressor Workshop is on your left hand side
